

As the national association representing Chinese industry of nonprescription medicines and healthcare products, China Nonprescription Medicines Association appreciates all hard work and positive efforts that **GSCF** put in the **Charter for Environmentally Sustainable Self-Care**. We will take on commitments that match our national circumstances as following:

Share information and initiatives to our membership.

Pharmaceuticals in the Environment

Work to encourage **safe disposal** of pharmaceuticals and promote the use of **take-back schemes** together with industry.

Plastics & Packaging

The rest areas of the Charter consistent with the Chinese guide line of public health care, **low-carbon and sustainable development in principle**, CNMA will make more active efforts in accordance with them.
