

Haleon is committed to helping tackle the social and environmental barriers that hold people back from better everyday health. By reducing its environmental impact, Haleon wants to help make better **everyday health more sustainable**, and is focussed on delivering on its goals to help do this.

Plastics & Packaging

- We aim to reduce our use of virgin petroleum-based plastic by a third by **2030**
- We aim to develop solutions for all product packaging to be recyclable or reusable by **2030***
- We aim to work with partners to drive global and local initiatives to collect, sort and recycle our packaging at scale by **2030**

Pharmaceuticals in the Environment

Trusted Ingredients, Sustainably sourced

- All key agricultural, forestry and marine derived materials used in ingredients and packaging sustainably sourced and deforestation free by **2030**
- A comprehensive programme to drive trust in **ingredients & formulations**

© Abele Payman

CO₂ Footprint

- We aim to reduce our net Scope 1 and Scope 2 carbon emissions by **100% by 2030****
- We aim to reduce our Scope 3 'source to sale' carbon emissions by **42% by 2030****
- We aim to achieve **Net Zero carbon emissions by 2040** aligned to guidance from The Climate Pledge and Race to Zero
